

## **AUTONOMOUS VEHICLE INDUSTRY ASSOCIATION**

Ariel Wolf serves as General Counsel to the Autonomous Vehicle Industry Association (AVIA). He advises AVIA on legal and policy issues, and engages with state and federal policymakers, including testifying on the Association's behalf.

Previously, Ariel served as a senior official at the U.S. Department of Transportation, where he helped develop the agency's policies and priorities governing autonomous vehicles and automotive spectrum. He also launched the Department's Non-traditional and Emerging Transportation Technology (NETT) Council, and oversaw the Department's efforts on policies governing drones, hyperloop, and other innovative transportation technologies. Prior to that, Ariel worked as a senior policy advisor in the U.S. Senate.

Based in Washington, DC, Ariel leads the Autonomous and Connected Mobility team at the national law firm Venable LLP, where he also is a member of the firm's Privacy and Cybersecurity Practice Group.

He received his law degree from Georgetown University Law Center and his bachelor's degree from Harvard College.
